PROFESSIONAL SUMMARY

Senior Flutter Engineer with strong feature ownership in consumer mobile products. Own complex features from product requirements and technical design through implementation, analytics, staged rollout, and post-release iteration. Comfortable working beyond Flutter across native iOS and Android, backend integrations, CI/CD, and store releases. Collaborate with product, design, and backend teams on technical decisions and delivery.

PRODUCT DELIVERY
15+ apps shipped to production

ENGINEERING DEPTH
Flutter, native and backend

TECHNICAL LEADERSHIP
Solution design, reviews and mentoring

TOOLS & EXPERTISE

FLUTTER & DART
Flutter SDK, Dart, widget lifecycle, rendering pipeline, async/await, Futures/Streams, isolates, generics, mixins, extensions

AI-ASSISTED DEVELOPMENT
Cursor, Codex, Claude Code, agentic workflows, meta-prompts, Model Context Protocol (MCP)

ARCHITECTURE & STATE MANAGEMENT
- Clean Architecture, feature-first/layer-first, modularization, MVP, MVVM;
- BLoC/Cubit, Riverpod, Provider, Redux, MobX, RxDart

NAVIGATION, DI, CODE GENERATION
- GoRouter, AutoRoute, Navigator 1.0/2.0, deep linking;
- GetIt, Injectable, Freezed, build_runner, json_serializable;

MOBILE & NATIVE
iOS, Android, Swift, Kotlin, platform channels, Home Screen widgets, remote and local notifications, camera, video, Bluetooth, text-to-speech, calendar

NETWORKING & DATA
- REST APIs, Dio, Retrofit, package:http, WebSocket, GraphQL;
- Hive, Isar, Drift, sqflite, Supabase, Firebase, MongoDB, PostgreSQL;
- offline-first, caching and synchronization

UI, ANIMATION & LOCALIZATION
- Adaptive and responsive UI, custom widgets, CustomPainter;
- implicit and explicit animations, animation curves, Rive, Lottie;
- flutter_localizations, easy_localization, Intl

MONETIZATION & ADVERTISING
Google Ad Manager (GAM), SKAdNetwork, Meta Audience Network, Pangle, Liftoff, AppLovin, Amazon Publisher Services, Stripe, RevenueCat, in-app purchases, paywalls

ANALYTICS & EXPERIMENTS
AppsFlyer, Amplitude, PostHog, Mixpanel, Firebase, Remote Config, A/B testing

DEVOPS & RELEASE ENGINEERING
Git, GitHub Actions, GitLab CI, Fastlane, code signing, TestFlight, App Store Connect, Google Play Console, flavors, staged rollouts, store releases

QUALITY, OBSERVABILITY & PERFORMANCE
Unit, widget and integration testing, bloc_test, Mockito/Mocktail, Flutter DevTools, Sentry, Crashlytics, performance profiling, rebuild, memory and rendering optimization

SECURITY & AUTHENTICATION
OAuth 2.0, biometric authentication, secure storage (Keychain/Keystore), certificate pinning, encryption, screenshot/root/jailbreak detection, obfuscation

PROFESSIONAL EXPERIENCE

NOVE8 LTD

FLUTTER ENGINEER

SEP 2025 — AUG 2026

INTERNATIONAL PRODUCT COMPANY

WOOFZ WEBSITE · APP STORE · GOOGLE PLAY

Global pet-tech product · Primary market: United States

20M+
DOWNLOADS

Dog training and wellness application with personalized programs, activity tracking, and health insights.

- Shipped **AI-powered personalization**, wellness check-ins, and insight flows from requirements and technical design through production release.
- Built **subscription paywalls** and A/B-tested user journeys.
- Created reusable **Firebase Remote Config infrastructure** for controlled feature, content, and monetization rollouts.
- Improved **shared Flutter packages**, code generation, and development tooling in collaboration with backend, AI, product, QA, design, and content teams.

WHAT THE FLUTTER OÜ

FLUTTER ENGINEER / TEAM LEAD

NOV 2020 — AUG 2025

FLUTTER DEVELOPMENT AGENCY

AVI — AI VIDEO & ART GENERATOR APP STORE

500K+
USERS
JAN 2025 — AUG 2025

AI application for generating personalized videos and visual content from user photos.

- Built **image-analysis and video-generation flows**, templates, previews, and custom video playback.
- Delivered **dynamic onboarding and subscription paywalls** with in-app purchases, analytics, camera capture, ML Kit, Remote Config, and CI/CD for multiple flavors.

AI CALORIES APP STORE

0→1 MVP
JAN 2025 — AUG 2025

AI-powered calorie tracker using photo analysis for nutrition monitoring.

- Led **end-to-end Flutter MVP delivery**, including camera capture, backend integration, and meal logging.
- Built **progress analytics and personalized calorie recommendations** based on user goals.

LEARNY — DAILY MICROLEARNING APP STORE

10K+
CONTENT ITEMS
JAN 2025 — AUG 2025

Microlearning application with AI-generated content, themed feeds, and interactive lessons.

- Built **themed content feeds**, content discovery, lesson navigation, and interactive infographics.
- Developed **native iOS and Android Home Screen widgets** in Swift and Kotlin and integrated them with Flutter.

WHAT THE FLUTTER OÜ — CONTINUED

RESTAURANT MANAGEMENT SUITE

3-APP PLATFORM
JUN 2024 — JAN 2025

Restaurant operations platform combining an administrator CRM, a staff task-management app, and a customer booking app.

- **Integrated POS systems**, dining-area management, inventory, logistics, checkout, maps, and booking.
- Maintained **configurable Flutter flavors** and client-specific functionality across the application suite.

RALLYPIN WEBSITE · APP STORE · GOOGLE PLAY

FULLSTACK
DEC 2023 — MAR 2024

Rally navigation app with interactive event maps, spectator points, and routing adapted to rally stages.

- Built the Flutter application with **turn-by-turn navigation**, route tracking, and text-to-speech.
- Set up and deployed the **mapping infrastructure** using OSRM, osmium, Martin, and Hetzner.

TV24 TV GUIDE SUITE APP STORE · GOOGLE PLAY

TEAM LEAD
MAY 2023 — JUN 2024

TV guide suite comprising three localized applications for the Swedish, UK, and US markets.

- Migrated **3 legacy native applications** to Flutter with market-specific flavors, content, and preferences.
- Integrated **six advertising providers** through Google Ad Manager and custom mobile header bidding.

SURVEY SDK

TEAM LEAD
FEB 2023 — APR 2023

Reusable Flutter package and web application for creating, distributing, and managing surveys.

SUGGEST A FEATURE SDK GITHUB

TEAM LEAD
DEC 2022 — FEB 2023

Reusable Flutter module and data-source extension for integrating feature-request workflows into existing applications.

BEAUTY SALON PLATFORM

FULLSTACK
AUG 2022 — DEC 2022

Scheduling and customer-management platform developed across the Flutter application, backend services, and databases.

WASTE TRADING MARKETPLACE

B2B MARKETPLACE
JAN 2022 — AUG 2022

B2B recycling marketplace featuring material listings, seller profiles, and communication workflows.

SOLVA.KZ APP STORE · GOOGLE PLAY

FINTECH
JUN 2021 — JAN 2022

Mobile lending application covering customer onboarding, biometric authentication, loan applications, and loan calculations.

HEALTHCARE APPLICATION

HEALTHTECH
NOV 2020 — JUN 2021

Doctor-patient application supporting OTP authentication, medication plans, dosage schedules, clinical assignments, and treatment-progress tracking.
